## 2.4 学位论文与学生培养

[1] 张雅娟，博士论文，医院服务评价认知落差之社会网分析-两种制度的案例，2019 年 10 月毕业于清华大学社会学系。

[2] Zhao, Bo (co-supervise with Ramin Yayahpour) ，2014- 2019，Junior Faculty at University of Information Engineering, China.

[3] Tschofenig, Hannes (extern, ARM Ltd): IP-based Emergency Services, 2009-2019,Distinguished Engineer at ARM Ltd. Also: Member of Internet Architecture Board (IAB) (2010-2014)

[4] Zhao, Tao: Identification of Users' Social Status via Mining Online Big Data, 2015-2019,NUDT as an assistant professor

[5] Barakat, Osamah Lutf: Efficient Data Management and Policy Composition for Software-defined Networking,2015-2019,Network Architect-SDWAN at Siemens AG

[6] 杨鲲昊，硕士论文，基于社交应用互动数据的用户人脉模型，2018 年 6 月毕业于清华大学社会学系。

[7] 郭晴，硕士论文,产业领袖的成长路径—从网络视角分析风险投资行业,2018 年 6 月毕业于清华大学社会学系。

[8] Kulkarni, Sameer: Resource Management for Efficient, Scalable and Resilient Network Function Chains(" summa cum laude "),2015-2018, University of Göttingen

[9] Prasad, Abhinandan: Automated Provisioning of Fairly Priced Resources,2015-2018

[10]Silvestro, Alessio: Architectural Support for Implementing Service Function Chains in the Internet,2015-2018, University of Göttingen

[11]Zhang, Fei (co-supervise with Ramin Yayahpour):Challenges and New Solutions for Live Migration of Virtual Machines in Cloud Computing Environments,2014-2018, University of Göttingen

[12]刘济帆，硕士论文，「联合投资网络动态演化模型探析」，2017 年 6 月毕业

于清华大学社会学系。

[13] Dieter Lechler, Master Theses, Decentralizing Online Social Networks via Home Gateways, Master Thesis, Institute of Computer Science, University of Göttingen, Göttingen, Germany, June 2017

[14] Martin Schwarzmaier, Master Theses, Sybils in Disguise: An Attacker View on OSN-based Sybil Defenses, Master Thesis, Institute of Computer Science, University of Göttingen, Göttingen, Germany, Mar 2017

[15] Marcus Khalil, Bachelor Theses, Mining fluctuations in customer satisfaction from online reviews - A case study of yelp, Faculty of Economic Sciences, University of Göttingen, Göttingen, Germany, Sept 2017

[16] 邹亚琦，硕士论文，中国风险资本联合投资：高不确定性下的有限理性策略，2016 年 6 月毕业于清华大学社会学系。
